RE: Devore vs. Coleman

Dear Mr. Ortiz:

Thank you very much for your excellent service on this complicated case. We hired you to prepare individualized cost estimates on 99 homes in a very limited amount of time. The plaintiffs in this case received a terrific result, in great part because the defendants could not defeat the issues which you so accurately catalogued and quantified related to cost of repair.

Our construction defect practice relies on our experts providing prompt, detailed and careful analysis of the issues our clients face. Your work was excellent and you were always on time even when the deadlines we gave you were unreasonably short. We look forward to working with you as we prepare our next cases for trial.

Sincerely,

FULLER JENKINS
